

Aren Clissold

Full Stack Developer

Osaka, Japan | arencissold.com | LinkedIn | GitHub
hello@arencissold.com

Full-stack developer with four years at Aeon Media, including backend architecture ownership and modernisation of digital publishing platforms. Experienced in Rails and GraphQL backends, TypeScript and Next.js frontends, AWS infrastructure and production AI features. Earlier IT and networking experience supports a practical approach to reliability and troubleshooting.

Technical skills

Ruby on Rails, GraphQL, TypeScript, JavaScript, React, Next.js, PostgreSQL, SQL, HTML/CSS, Tailwind CSS, AWS (ECS, Lambda, CloudFront, S3, RDS), Terraform, Redis, OpenSearch, Git

Professional experience

Full Stack Web Developer | Aeon Media Group Ltd

July 2022 - June 2026

- Owned the backend migration of Rails authentication and custom CMS applications to GraphQL APIs with Next.js frontends (Jan - Mar 2025), in a five-person engineering team.
- Kept new APIs in the Rails app and ran a CMS production beta alongside the old UI, enabling gradual adoption by approximately 30-40 editors and production staff and contributions from React/Next.js developers.
- Built an image-optimisation pipeline using CloudFront, Lambda and S3 to improve delivery performance and reduce transfer costs; contributed to Terraform adoption.
- Delivered production AI features for podcast audio generation, moderation assistance and image alt text; implemented two-factor authentication and improved session management.

IT Support Technician | Easyweb Digital

July 2021 - April 2022

- Collaborated with network engineers on equipment design, configuration and deployment for the Sydney Royal Easter Show; configured MikroTik RouterOS using Winbox.
- Deployed and supported satellite network equipment serving more than 500 Australian evacuation centres, and provided first-line technical support and customer communication.

Teaching Assistant | Le Wagon

July 2022 - July 2023

- Supported students learning Ruby on Rails, JavaScript and full-stack development through debugging, pair programming and collaborative projects.

Education and languages

Bachelor of Biomedical Science | Monash University | awarded Jan 2021

Full-stack Web Development Bootcamp | Le Wagon | April - June 2022

English: native/bilingual proficiency. Japanese: JLPT N2 (Aug 2025); studying for N1 in December 2026.
